Dear Mr. Overby:

On April 26, 1983, we met to discuss the above-captioned cases at the fourth step of the contractual grievance procedure set forth in the 1981 National Agreement.

The question raised in these grievances involved whether the ~~light meter provided for letter cases~~ conforms with established standards and if the light measurements were properly conducted.

After further review of this matter, we mutually agreed that no national interpretive issue is fairly presented in the particulars evidenced in this case. Whether the lighting provided conforms with established standards and if the light measurement tests were properly conducted can only be determined by application of Section 233.32 of the MS-49 Handbook and the manufacturer's operating instructions of the light meter to the specific fact circumstances involved.

Accordingly, as we further agreed, these cases are hereby remanded to the parties at Step 3 for further processing, if necessary.

Mr. Halline Overby
