RE: HON-NA-C 7  
V SOMBROTTO  
WASHINGTON DC

Dear Mr. Hutchins:

Recently, Rodney Lambson met with you in prearbitration discussion on the above reference case currently pending national level arbitration.

The issue in this case is whether the time necessary for the retrofiting of mirrors to the Long Life Vehicles (LLVs) constitutes a violation of Article 14.

After reviewing this matter, we agreed that:

1. The latest LLV mirror modifications will be field tested.
2. Upon completion of the field test a mirror modification will be selected.
3. The selected LLV mirror modification will be placed in the bid solicitation process.
4. A vendor will be chosen from this process to supply the Postal Service with the modified mirrors.
5. Once the vendor has delivered all of the modified mirrors to the Postal Service, the Postal Service has nine (9) months from the date it receives the last modified mirrors to install them on all LLVs.
6. Once a local installation receives the modified mirrors, it has sixty (60) days in which to install the modified mirrors on all LLVs in that installation.

Hutchins
