Dear Myra:

This is in reference to your May 10 correspondence concerning requests for voluntary reassignments in the eReassign process.

Pursuant to Article 12.6 of the National Agreement and the July 21, 1987 MOU Re: Transfers, installation heads will consider requests for transfers submitted by employees from other installations. The eReassign process does not change this contractual requirement.

If an employee submits eReassign requests for a transfer to more than one installation in a district and a request for one of those installations is considered but not granted, this does not close or delete requests for other installations. Rather, the other transfer requests will receive consideration, as appropriate, pursuant to Article 12.6 and the MOU Re: Transfers.

Please contact John Cavallo at (202) 268-3804 if you have additional questions concerning this matter.

Sincerely,

A.J. Johnson
