Dear Mr. Rolando:

On several occasions our representatives met at the Interpretive Step on the above-captioned grievance. Time limits were extended by mutual consent.

The issue is whether the scanning process used for Delivery Unit Saturation Mail Scanning violates the National Agreement.

After reviewing this matter we mutually agree to settle this case based on the following:

Under this process the letter carrier scans the mailing's barcode in the office on the day he/she is scheduled to take the last of the saturation mailing to the street for delivery. By scanning the mailings barcode, the letter carrier is not verifying that he/she has delivered the mailing. The subject scanning process is an internal measurement system used to verify when a saturation mailing is scheduled for delivery.

Please sign and return the enclosed copy of this decision as acknowledgment of your agreement to resolve this case.
